If student is participating in Grade Recovery, the teacher must sign approving that the grade will be changed upon completion of the district created course. The teacher will be notified upon successful completion and the grade will be adjusted to a 75/C per district policy.

Teacher Approval for Grade Recovery: _____

Parents,

An internet based platform is used for grade and credit recovery courses. In order to be successful, the student **MUST** complete 100% of the course with a completion grade of 70% or higher. Quizzes may be taken two times and all tests must be taken in the presence of a teacher. Students may work from home and if completing credit recovery, working from home is essential.

Participation does not guarantee an improved grade. The course must be satisfactorily completed. It is expected your student will attend until the course is completed. A student may not be allowed to attend if in violation of behavioral rules.

You may opt to have a report emailed to you with your student's progress. Would you like this? Yes No

If yes, please write your email **LEGIBLY**: _____

I understand that if my student does not meet these requirements, the original grade will remain.
